(a) Stoic. (b) Hedonist.
(c) Cynic. (d) Recluse.

Based on the paragraph given, kindly answer questions 6-8 :

The 2026 Kerala Legislative Assembly election witnessed an intense and highly competitive campaign among the major political alliances—LDF, UDF and NDA. Unlike earlier elections that relied heavily on grassroots mobilization, this campaign was marked by high-voltage media strategies, including digital outreach, social media "video wars", and targeted advertising. The Left Democratic Front (LDF) focused on continuity and governance, promoting its slogan "Who else but LDF" ? and highlighting development achievements and welfare schemes. The United Democratic Front (UDF) countered with the "Puthuyuga Yathra" (March into a New Era), emphasizing change and welfare promises like financial support for women and youth. Meanwhile,

Turn over

the NDA attempted to expand its base through aggressive branding and development-focused narratives. The campaign also saw increasing personalization around leaders, particularly Chief Minister Pinarayi Vijayan, reflecting a shift toward leader-centric politics. Over-all, the election campaign combined traditional rallies with modern communication tools, making it one of the most dynamic electoral contests in Kerala's history. (Source : Times of India)

6. Which of the following was a key feature of the Kerala election campaign in 2026 ?

- (a) Only door-to-door campaigning.
- (b) Decline in media usage.
- (c) Use of digital media and video campaigns.

6 to 8. Read the passage below and answer questions :

For millions of people in India, river Ganga is most scared river. It considered as mother and goddess. It is also a life line to millions of Indians who live on the banks of its course and depend on it for their daily needs. River Ganga is the third largest river in the world by the amount of water that flows through it. It is the longest river in India. The river water of Ganga is used for irrigation, transportation and fishing. The Gangetic plain formed by river Ganga is one of the most fertile lands on earth. This is why almost 10 per cent of the world population lives here and earns its livelihood. The Ganga, in India is the most worshipped body of water. The irony here is that in spite of being the most worshipped river, it is also the dirtiest one. It carries metals thrown out by tanneries, waste produced by industries and urban waste from different cities. All this has made river Ganga the fifth most polluted river in the world. Another major reason that adds to the Ganga river pollution is the coal based power plants on its banks which burn tons of coal every year and produce a lot of fly ash. This ash mixed with domestic waste water is released in to the river. This bad situation calls for an urgent need to make efforts to reduce pollution and revive river Ganga. To achieve these objectives, the Government of India has started a programme named "Namami Ganga Programme". The main pillars of this programme are sewage treatment, river surface cleaning, afforestation, river front development and public awareness. The importance of the success of "Namami Ganga Programme" can be seen through the following lines : "If Ganga dies, India dies. If Ganga thrives India thrives. No Ganga, No India".

6. Most people in India consider the Ganga as _____.
- (A) River. (B) Mother.
(C) Goddess. (D) Both (B) and (C).

(C) Will. (D) Ought to.
5. ————— you please give me a glass of water ?
(A) Would. (B) Can.
(C) Must. (D) Should.

Read the passage below and answer Question 6 to 8

A PURPOSE IN LIFE

Turn over

A noble purpose gives meaning to one's own life and is of benefit to others. I realised this while researching on and writing about the life of Jamshed ji Tata. What gave one man living in a colonised country the vision to advance it in the community of nations? He not only gave India the power of steel and hydroelectric energy, but also an institution of research.

He sent an educationist to Europe and the United States to report on what should be the best model for India. The John Hopkins University in Baltimore was recommended as the model. But Tata made it to a point to see that his name was not associated with the university. After his death, his dream came true with the establishment of the Indian Institute of Science in Bengaluru. It was to be the fountain head of science in the decades to come. There are others too, whose purpose in life has made a difference to society. Mother Teresa had a comfortable life at Loretto Convent, Kolkata. On a train journey to Darjeeling, she felt her 'calling' and wanted to give up her comfortable life in the convent and serve the poor and the needy.

After that, she took a three month nursing course and returned to Kolkata. She devoted her time to the sick and the homeless. Touched by her sacrifice, some of her students joined her and work began. Not everyone has such a strong calling. When I asked her how one could be sure of one's calling, she replied. "Deep down in our hearts we know exactly what our calling is, if we are sincere." One's purpose is shaped over a period of time, but every noble purpose is based on a feeling for the suffering of others and our desire to alleviate that condition. Some years ago, in Kerala, a young man saw his father join Gandhiji and fight for opening temples to the Harijans. When he grew up, the boy decided to take up agricultural studies, because he had seen the havoc caused by the Bengal famine. He went to Europe and studied agriculture. On his return to India, he spearheaded the Green Revolution. Dr M.S Swami Nathan, thus demonstrated how purpose intensifies with time.

6. Complete the statement appropriately : The above passage tries to convey that _____.
- (A) There should be a purpose to give meaning to life so that humanity is benefitted.
 - (B) To full fill the purpose of life.
 - (C) To lead the life with wealth.
